Technology experience

Javascript

Angular - jQuery - Grunt - RequireJs - WebSockets - AJAX - Backbone - Meteor - Bower

CSS3

Sass - Bourbon - LESS - Bootstrap - Foundation

Backend

Node - MongoDB - AWS - PHP - MySQL

Version Control

Git - SVN - CVS

Expertise

Single page, mobile first, native-like web apps - Architecture - Development - Deployment - Workflow - Backend integraion - API modeling - Debugging - Product and feature design

Professional Development

OKCupid - Frontend Engineer, Frontend Engineer, November 2013 - Present

- Implementing the front-end redesign of multiple mobile-web dating properties
- Developing entire Angular single page mobile web apps from the ground up
- Coding advanced, cross-browser features:
 - infinite scroll
 - pull to refresh
 - pinch to zoom
 - photo upload
 - instant chats and notifications with web sockets
 - Tinder-style card swiping
 - animated screen transitions with fluid framerates and 3D effects
 - swipable image galleries
 - phone/tablet responsive
 - geolocation
 - sticky footers and headers
 - lazy loading javascript assets
- Assembling featureful Grunt development environment:
 - localhost server
 - Weinre remote device debugging
 - effortless retina/non-retina spritesheet generation
 - endpoint proxying
 - deployment scripts
 - cache-busting mechanisms
 - asset compilation
 - git integration
- Coding in both sole-ownership and team-contributor scenarios
- Migrating architecture between projects
- Collaborating closely with designers on product features
- Writing detailed specification documents for backend developers
- API modeling collaboration with backend developers
- Reaching millions of page views

Viggle Inc. - Senior Web / Javascript Engineer, April 2013 - October 2013

- Architecting an AngularJs HTML5 app within a hybrid iPad app with transactional functionality.
- Directing and merging code contributions.
- Coordinating production deployment.
- Estimating tasks, researching technology, and planning for future initiatives.

inPerson.in / Blaboid Inc. - Entrepreneur, November 2010 - April 2013

- Launching a privacy focused social networking platform for finding people to meet in person to do activities or have conversations.
- Coordinating business needs with lawyer, accountant, and consultants.
- Developing the platform, consisting of a single page HTML5 mobile web app with user generated content, hosted on Amazon, with PHP/MySQL backend.

Alexander Interactive - Front End Web Developer, May 2011 - March 2012

- Serving E-commerce clients such as Lowe's Home Improvement.
- Doing agile with daily scrum calls, sprint planning/review, and demos for executive product owners.
- Flying to client corporate headquarters for onsite consulting.
